24/7 monitoring	Often extra	Included
You save	—	**$25,000+ per year**

Based on typical camera trailer rentals of $3,000–$5,000/month. Savings shown against the low end.

Why it costs less

A trailer is a $20,000–$50,000 asset that someone has to finance, tow, and maintain, and that cost ends up in your rent. Our cameras are small, battery-powered, and cellular. They mount on fence posts, poles, or framing in one visit. No trailer, no tow, no generator, so you pay less.
